

Q1. Attempt any 4 from following

- a) Describe different types/properties of environment of AI agents. (2m)
- b) Explain the Learning Agent with suitable block diagram. (2m)
- c) Explain WUMPUS world environment giving its PEAS description/note on wumpus environment. (2m)
- d) Write Short notes on applications of AI. (2m)
- e) Give PEAS descriptors for Vacuum cleaner. (2m)

Q2. Attempt any 2 from following

- a) Enumerate Classical 'Water jug Problem'. Describe the state space for this problem and also give the solution. (5m)
- b) What do you understand by uninformed search methods? Explain BFS (Breadth First Search) and DFS (Depth First Search) with suitable example. (5m)
- c) What is formulation of a problem. Formulate the Wumpus world problem in terms of initial state, actions, successor function, goal test, path cost. (5m)

Q3. Attempt any 1 from following

- a) Differentiate between biological and artificial neurons with the help of labelled diagrams. (5m)
- b) Explain the structure and working of a biological neuron with the help of a labelled diagram. (5m)
